Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Applicant remarks the difference between the prior art and claim 1 regarding to the "identifier". Examiner notes (1) both of the claim 1 and prior-art teach partial encryptions based on the type of the service component / media and neither of them" explicitly" teaches using identifier for encryption (2) on the other hand, the argument point of identifier does not really carry patentable significant feature in light of both disclosures, Lastly, Examiner suggests to bring-in more specific crucial features into the claim in order to satisfy the condition of the allowance .
